

The First \$1,000 Decision Sheet

Two thought tests, one commitment. Decide on paper before the money moves.

TEST 1

The Learning Dividend

A \$1,000 lifetime learning budget, spent in 12 months. What skill do I buy?

TEST 2

The One Hour Question

Build \$500/mo with \$1,000 and 1 hour a day. What must I learn?

The smallest version I can start this week

I will not chase anyone's 10x promise

Anyone promising to multiply your money is selling something.

E.G. *Example pick: a \$200 modeling course pays a dividend every recruiting season for the rest of your career.*

Your first \$1,000 is proof you can create more.

The goal is the skills that earn the first million.

The first \$100K is the hardest. Start anyway.
