

The Finance Skills Fast-Track

Three shortcuts collapse the curve. Lock in your 20% below.

SHORTCUT 1

Go to the source

A short, direct ask to an analyst who just did it.

SHORTCUT 2

Isolate the 20%

Drill the 3 things that actually show up in interviews.

SHORTCUT 3

Teach it to lock it

Teach a classmate this week: learn it twice.

My 3 interview technicals

e.g. walk me through a DCF, the 3 statements linked, EV vs equity value.

E.G. *The source ask: 'You just went through recruiting. Which 3 technicals actually came up, and how deep did they go?'*

Source it. Isolate the 20%. Build the framework.

40 hours of videos is the floor, not the fix.
