

The Pre-Funded Income Audit

Type the monthly income you want. See what it actually costs to pre-fund it.

The 'passive' income I want per month

\$ _____

Realistic yield on the money

3 to 8%

Capital you'd need invested

This is the pre-funding nobody posts about.

= _____

Who does the active work in this stream?

Someone always does. Name them.

It's funded with capital or effort I actually have

☐

E.G. *Reality check: a rental bought with cash nets a few hundred a month after every expense. Real, durable, not a lambo.*

Passive for you is active for someone else.

Pre-fund it honestly and the income is real.
