

The 3-Signal Resume Check

Check the three signals, then rewrite one bullet and let the lab grade it live.

COURAGE

One deliberate risk is on the page

A harder path chosen on purpose, with the why.

☐

OWNERSHIP

Something I built outside my job description

Screens flag: launched, initiated, built, created.

☐

RESULTS

Something I measurably improved, with the number

What exists because of MY work, not my team's?

☐

Rewrite one bullet here

Use a power verb and a number.

E.G. *'Helped with club events' becomes 'Launched a 4-firm networking night; 62 students attended.'*

Courage. Ownership. Results.

Prestige gets skimmed. Proof gets interviewed.
